SUMMARY

Enthusiastic early-career technologist passionate about solving complex problems through technology. Skilled at researching, adapting, and applying modern development practices to deliver efficient and scalable solutions. Eager to contribute to meaningful projects, expand technical expertise, and continuously evolve as a developer in a supportive and innovative environment.

EDUCATION

Bachelor of Science in Computer Science

Vivekananda College of Engineering and Technology, Puttur

B.E CSE in Data Science

Sept 2022 - Aug 2026

- CGPA: 8.28

TECHNOLOGY

Languages: C, Java, Python, SQL

AI & Data Science: Numpy, Pandas, Gradio

Data Analytics: Tableau, Power BI, Hadoop, Excel

Cloud & DevOps: Git & GitHub, Docker

Development: HTML, CSS, MongoDB, Figma

PROJECTS

Farm Fresh Bid

- A web platform using HTML, CSS, JS, Node.js/Django, and MySQL to link farmers with buyers. Includes real-time bidding, payment integration, and live updates. Ensures fair pricing, transparency, and better market

Crop Price Prediction and Smart Farming insights

- Building a smart platform using machine learning, web scraping, and weather analytics to predict crop prices, analyze demand, and recommend profitable crops, helping farmers make informed decisions and improve sustainability

Campaign Tracker

- Built a full-stack Campaign Tracker web app using Flask, HTML/CSS/JS, and JSON for CRUD operations and campaign status tracking.

CERTIFICATION

Diploma in Computer Application & Tally-Gst

Dec 2020

Programming using Java

June 2025

Data Analyst 101

April 2025

Basic SQL Course

March 2025

HTML & CSS BootCamp

July 2024
