SUMMARY

Enthusiastic Computer Science student with a strong foundation in programming, algorithms, and problem-solving. Skilled in languages such as Python, Java, and C++, with hands-on experience in academic projects. Passionate about software development, eager to learn new technologies, and contribute to innovative solutions.

PROJECTS

Farm Fresh Bid

A web platform using HTML, CSS, JS, Node.js/Django, and MySQL to link farmers with buyers. Includes real-time bidding, payment integration, and live updates. Ensures fair pricing, transparency, and better market

Crop Price Prediction and Smart Farming insights

Building a smart platform using machine learning, web scraping, and weather analytics to predict crop prices, analyze demand, and recommend profitable crops, helping farmers make informed decisions and improve sustainability

Campaign Tracker

Built a full-stack Campaign Tracker web app using Flask, HTML/CSS/JS, and JSON for CRUD operations and campaign status tracking

EDUCATION

Bachelor of Engineering in Computer Science (Data Science)   **Sept 2022 – Aug 2026**

Vivekananda College of Engineering and Technology, Puttur   **CGPA: 8.28**

TECHNOLOGY

Languages: C, Java, Python, SQL
AI & Data Science: NumPy, Pandas, Gradio
Data Analytics: Tableau, Power BI, Hadoop, Excel
Cloud & DevOps: Git & GitHub, Docker
Development: HTML, CSS, MongoDB, Figma

CERTIFICATIONS

Diploma in Computer Application & Tally-GST	**Dec 2020**
Programming using Java	**June 2025**
Data Analyst 101	**April 2025**
Basic SQL Course	**March 2025**
HTML & CSS BootCamp	**July 2024**
